Technology in ESOL: Empowering the Global Community of Language Teaching Professionals

Abstract

This online Conference entitled, Technology in ESOL: Empowering the Global Community of Language Teaching Professionals, is a collaboration of LTSIG, ESOL and the University of Nicosia aiming to share ideas on incorporating Technology in low-resource ESOL contexts/ classrooms. The international nature of this Conference provides a unique opportunity for all teachers, academics, publishers, and any other stakeholders having to do with implementing Technology in teaching English as a second language to submit proposals for inclusion in the programme, reflecting the diversity and variety of the profession.
